NHS test and trace have responsibility for contacting any contacts, this is not the responsibility of the facility but we are required to provide the information recorded when requested.

Training groups outside the facility

May also be Covid secure environments if all the above criteria is demonstrably in place.

If this is not possible the groups may have no more participants than 1:5 as per the EA guidance.

This is of critical importance during local lockdowns where groups larger than 6 are not permitted to gather , this is legally enforceable if not within an EA compliant Covid secure environment.
